## Petition for a Special Interest group/Educational Interest Group in Mechanical Diagnosis and Therapy

In 2013, a group of Diplomates in Mechanical Diagnosis and Therapy (MDT) decided to form a Special Interest Group in the American Physical Therapy Association. The purpose of this group will be twofold:

- 1) To educate in and promote the principles of the management of musculoskeletal disorders as developed and described by Robin McKenzie.
- 2) To give MDT clinicians, as well as clinicians interested in MDT, a common place to network and support the APTA through collectively promoting the principles of MDT.

In order to be considered for this Educational/Special Interest Group, we need to gather signatures from Orthopedic section APTA members. **We must have the ORIGINAL signatures. Electronic or photocopies will not be accepted.** 

If you have an interest to support or participate in this group, **PLEASE PRINT AND SIGN** this petition and mail it back to:

Susan Bamberger PO Box 936 Beaverton, OR 97075

If you have any questions, please contact Susan Bamberger, PT, Dip MDT at susanbamberger@gmail.com

Thank you for your consideration.
